

Technical Tree Cutting & Felling Workshop

8:00 am – 4:00 pm

Oct. 3, 2010

West Virginia University Research Forest, Morgantown, WV

6.5 CEU's

Have you been using a saw for a long time and are interested in an excellent refresher? Would you like to build your confidence and expand your ability in felling trees safely and quickly? Whether you are a beginner or an experienced feller this course offers something for every level of chainsaw operator.

The Workshop Covers:

- The newest tree felling equipment and techniques
- Unique challenges presented by felling trees in the urban environment
- Chainsaw safety, maintenance, use and handling
- Accident prevention
- Planning strategies
- Personal safety
- Risk assessment
- Plenty of time for “hands-on” practical exercises included

About the Instructor

Scott Prophett is president and a lead instructor of North American Training Solutions. Scott instructs classes and seminars on safety and a wide range of skills for organizations around the world. Scott has been involved in ownership and management of businesses for over 20 years. He is passionate about helping organizations with management issues such as: skills training, team building, standard operating procedures, occupational hazard compliance and strengthening business practices.

Fees:

\$100 MAC-ISA members (Includes box lunch)

\$150 Non member (*to join include \$60 for a one year chapter only membership then pay member price for seminar)

This is one of four pre-conference workshops being offered at the **2010 MAC-ISA Annual Meeting**. Others include: *CPR/First Aid, Up by Roots* with Jim Urban and *Conducting Tree Structure Evaluations* with Neil Hendrickson of the Bartlett Research Lab. Visit www.mac-isa.org for more information.

Visit www.mac-isa.org to register on-line or download registration form. Registration is for pre-conference workshops as well as the annual meeting. Sign up early, space is limited!
